**[www.tricountykitchens.com](http://www.tricountykitchens.com)**

As the owner of **Tri County Kitchens** I would like to begin by offering my heart felt appreciation for the overwhelming support of our business by voting us #1 for Best of the Best for **kitchen and bath remodeling** in **Westmoreland and Allegheny Counties** for the 15th year in a row!

I'm often asked to what we attribute our success. When we started our business in 1984 I told my amazing wife, Alice, we need to arrive on time, return calls promptly, and do what we say we are going to do. Now, more then ever, it seems that these simple golden rules of customer service need to be followed as many businesses often neglect them.

**We specialize in problem kitchens and unique designs**, treating each job as if it were our own. I can honestly say I am as excited about every project we do today as I was when I began designing 40 years ago. I believe that combining this passion with the area's best pricing, completing most installations in a timely manner\*, and the fact that we supply only all wood cabinets (**No particleboard!**) gives us the edge. We have quality products to fit all budgets.

\*granite countertops generally require additional 10 business day turn around time.

We are designers. I believe that if I were to say there was a single word to sum up our great story it would be **patience**. Our industry has exploded with products and options and we are determined to take the time to explain all the pros and cons of different designs and materials available. We even have two full time interior designers on staff to assist our clientele with their selections at no additional charge.

We are very proud of our referral list of over **9,000 satisfied customers**, which you are welcome to review. The reason I feel that we receive this recognition EVERY year is because of the relationships we build. I thank you once again for your votes and if you're just learning about us, please stop by our showroom so we can get acquainted.

*Thank You, Todd*
